

Limitation

- Projected Mid-Year Population for the year 2014 which is based on The Population Census 2001, as supplied by Demographic Division, RGI, MHA, is used for calculation of crime rate. However, rough estimation based on population ratio of Districts as per The Population Census 2011 for the newly created States namely Telangana and Andhra Pradesh.
- Like previous years, this year also mid-year estimated population of children (up to 18 years of age) has been used for calculating crime rate in respect of crime against children for the year 2014. However, rough estimation based on population ratio of Districts as per The Population Census 2011 for the newly created States namely Telangana and Andhra Pradesh.
- Population figures of persons belonging to SCs & STs, Senior Citizens and Mega Cities from the Population Census 2011 have been used for calculating Crime Rate for 'Crime against SCs & STs', 'Crime Against Senior Citizens' and 'Crime Rate in Mega Cities', due to non-availability of projected mid-year population figures for the year 2014 for these categories.
