PIONEERS OF FINGER PRINT SCIENCE

There are records of fingerprints being taken many centuries ago. Ancient artifacts with carvings similar to friction ridge skin have been discovered in many places throughout the world. The ancient Babylonians pressed the tips of their fingertips into clay to record business transactions. Thumbprints were used on clay seals in China to “sign” documents. A petro glyph located on a cliff face in Nova Scotia depicts a hand with exaggerated ridges and finger whorls, presumably left by the Mi'kmaq people.

With the advancement in the field of Identification/ Investigation, many of the Scientists/ Investigators worked, whose contributions are listed below:

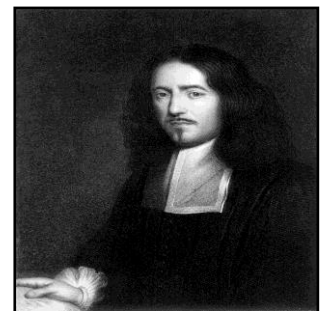

Dr. NEHEMIAH GREW (1641-1712)

- English Plant Morphologist, Considered as “Father of Plant Anatomy”.
- Studied and described the ridges, furrows, and pore structure of friction skin.
- Published very accurate drawings of the Finger Print patterns and areas of the palms.
- Did not address uniqueness or permanence of the ridges.

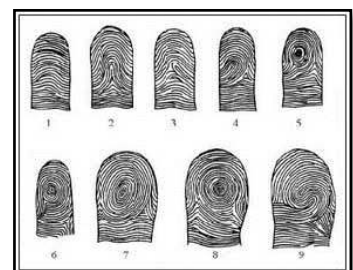

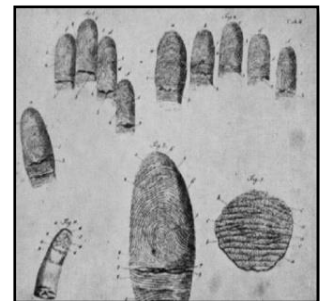

MARCELLO MALPHIGHI (1628-1694)

- First to see the capillaries and was a founder of histology, embryology, plant anatomy, and comparative anatomy.
- Used a microscope for the first time to examine friction skin and made observations as to its structure.
- Malpighian layer of skin named after him, for his research contributions.
- Did not address uniqueness or permanence of friction ridges.

Dr. J.C.A. MAYER (1747-1801)

- Authored a book on human anatomy and anatomical illustrations. The book is one of the earliest recordings supporting the uniqueness of fingerprints.
- The book included drawings of friction skin and this is still a valid statement ;
“Although the arrangements of skin ridges are never duplicated in two persons, nevertheless the similarities are closer among some individuals. In others the differences are marked, yet in spite of their peculiarities of arrangement all have certain likeness.”
This statement has been verified by all other medical

and scientific researchers of friction skin.

Dr. JOHANNES E. PURKINJE (1787–1869)

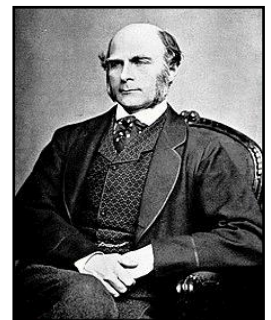

- At Breslau he created the world's first Independent Physiology department and the first official Physiology laboratory.
- He discovered the Purkinje effect, Purkinje cells, and Purkinje fibers.
- He was the first to give regular classification of Fingerprint patterns into nine categories which is as follows:

➤ A: Transverse curves, ➤ B: Central longitudinal stria, ➤ C: Oblique stria, ➤ D: Oblique sinus, ➤ E: Almond	➤ F: Spiral, ➤ G: Ellipse or elliptical whorl, ➤ H: Circle or circular whorl, and ➤ I: Double whorl
--	--

Sir WILLIAM JAMES HERSCHEL (1833-1917)

- He experimented with the idea of using a hand print as a signature by a man named Rajyadhar Konai put a stamp of his right hand on the back of a contract. The contract was received and accepted as valid.
- He instituted taking fingerprints of both pensioners and criminals so that it is not carried out by imposters.
- He was the first person to use Hand Prints/ Finger Prints officially.
- He published an account of his work entitled 'The Origin of Fingerprinting'.

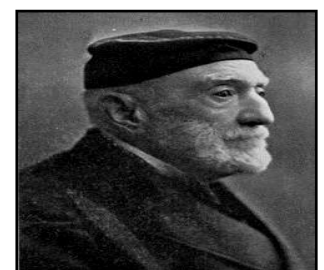

Dr. HENRY FAULDS (1843–1930)

- British surgeon and Superintendent of Tsukiji Hospital in Tokyo.
- Wrote an article that discussed fingerprints as a means of identification.
- He published a paper on the subject titled 'On the Skin-Furrows of the Hand', in the scientific journal 'Nature' and it was the first scientific literature to suggest the basic concepts of the fingerprint system of identification.
- In an article, Faulds proposed using friction ridge individualization at crime scenes and gave two practical examples.
- Recommended Printer's Ink for recording of fingerprints.

SIR FRANCIS GALTON (1822-1911)

- He was an English explorer and anthropologist best known for his research in Eugenics and Human Intelligence.

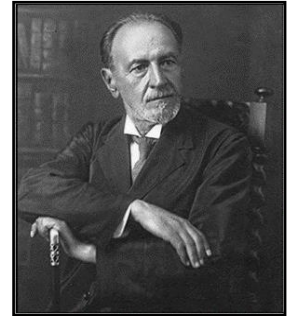

- Established that friction ridge skin was unique and persistent.
- Defined & Named each Peculiar characteristics /Minutiae/ Ridge Characteristics
- Wrote book on “Fingerprints” in 1892 and “Decipherment of Blurred Fingerprints”

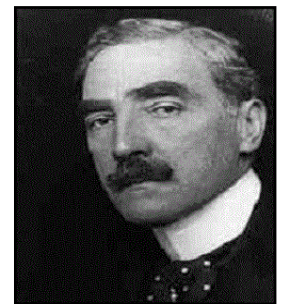

IVÁN (JUAN) VUCETICH (1858-1925)

- His classification system and individualization of prisoners through the use of fingerprints were the first practical uses of the Finger Print science by law enforcement personnel.
- He made the first positive identification of a criminal in a case where Francisca Rojas had killed her two children and then cut her throat, trying to put the blame on the outside attacker. A blood print identified her as the killer.

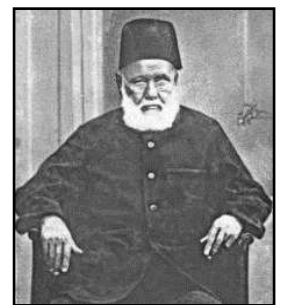

SIR EDWARD RICHARD HENRY (1850-1931)

- Inspector General of Police for the Lower Provinces in Bengal.
- Considered as Father of Modern Finger Print Science.
- With the help of Indian Police Officers Khan Bahadur Azizul Haque, and Rai Bahadur Hem Chandra Bose, the Henry classification system was developed.
- Went before an inquiry committee to convince them to change to fingerprinting of criminals instead of using the Bertillon Method.
- Established the Metropolitan Police Finger Print Bureau, which Was Britain's first.
- Published a book “The Classification and Use of Finger Prints.”

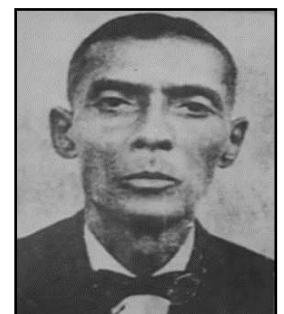

AZIZUL HAQUE (1872 – 1935)

- Officer-in-charge of the Anthropometric Bureau at Calcutta
- Helped in devising the classification formula on a mathematical basis.
- Was awarded the title “Khan Bahadur”
- Was awarded honoraria of rupees 5000/- for his contribution to the establishment of Finger Print classification.

HEM CHANDRA BOSE (Born in 1867)

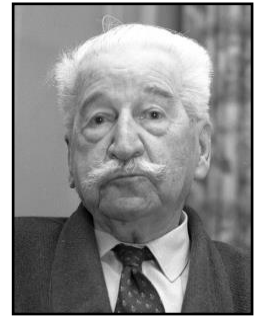

- An officer of the Anthropometric Bureau in Calcutta
- Created a system for single digit impression
- Created a telegraphic code for communicating classification.
- Was awarded the title “Rai Bahadur”
- Wrote a book called “Finger Print Companion”

EDMOND LOCARD (1877-1966)

- Formulated the basic principle of forensic science: "Every contact leaves a trace".
- Developed the science of Poroscopy.
- Established the first rules of the minimum number of minutiae necessary for identification. He said that if 12 specific points were identical between two fingerprints, it would be sufficient for positive identification.

LAWS RELATING TO FINGER PRINTS IN INDIA

In an endeavor for the betterment of the publication a new chapter on laws relating to Finger Prints has been added from this year, the chapter contains all relevant legal information pertaining to Finger Print Science in India.

Section 45 of the Indian Evidence Act, 1872, as amended by Act V of 1899, defines:

Any other person whose finger prints are ordered to be maintained by the Govt. of India from time to time, subject to the provisions of the Identification of prisoners Act (act XXXIII of 1920).

"When the Court has to form an opinion upon a point of foreign law, or of science or art, or as to identity of handwriting or finger impressions, the opinions upon that point of persons especially skilled in such foreign law, science or art, or in questions as to identify of handwriting or finger impressions are relevant facts. Such persons are called Experts".

Section 293 of Cr. P.C. states as follows:

- 1) Any document purporting to be a report under the hand of a Government scientific expert to whom this section applies, upon any matter or thing duly submitted to him for examination or analysis and report in the course of any proceeding under this code may be used as evidence in any inquiry, trial or other proceeding under this code.
- 2) The Court may, if it thinks fit, summon and examine any such expert as to the subject-matter of his report.
- 3) Where any such expert is summoned by a Court, and he is unable to attend personally, he may, unless the court has expressly directed him to appear personally, depute any responsible officer working with him to attend the court, if such officer is conversant with the facts of the case and can satisfactorily depose in court on his behalf.
- 4) This section applies to the following Government Scientific Experts, namely:
 - a) Any Chemical Examiner or Assistant Chemical Examiner to Government.
 - b) The Chief Inspector of Explosives.
 - c) The Director, Finger Print Bureau.
 - d) The Director, Haffkine Institute, Bombay.
 - e) The Director of a Central Forensic Science Laboratory or a State / UT Forensic Science Laboratory.
 - f) The Serologist to the Government.

To ascertain, whether a finger print is that of a person by whom it purports to have been made, the court may direct any person present in the court to record his finger prints for the purpose of enabling the court to compare the finger prints alleged to have been made by such person. When given by recognized finger print experts, evidence as to the identification of persons by means of finger prints left at the scene of crime, is a fact. Summon from court is received whenever, court requires the services of experts either to prove the identity of the accused person or to give evidence in case in which experts opinion has already been furnished by the Bureau.

LAWS RELATING TO PREPARATION OF RECORD AND SEARCH SLIPS

Identification of Prisoners Act, 1920

Section 3: Related to Convicted Persons

- a) Every person who has been convicted of any offence punishable with rigorous imprisonment for a term of one year or upwards or of any offence which would render him liable to enhanced punishment on a subsequent conviction and
- b) Every person ordered to give security of his good behavior under Section 118 CrPC shall if so required allow his measurements and photographs to be taken by a police officer in the prescribed manner.

Section 4: Empowers police officers for taking fingerprints of non-convicted arrested persons in connection with an offence punishable with RI for one year or more.

Section 5: Empowers a magistrate of first class to order a person to give his Finger Print for the purpose of any investigation or proceedings.

- Section 6:**
- i) Empowers the use of necessary means to secure the fingerprints of any person who resists or refuses taking of fingerprints.
 - ii) Resistance or refusal is deemed to be an offence u/s 186 IPC.

Section 7: Deals with destruction of finger print slips on acquittal or on discharge or on release without trial.

SCHEDULE OF OFFENCES FOR TAKING FINGER IMPRESSIONS AS PER CFPB MANUAL

As per OM No. 115/POLICE (L)/ 55 (8) Intelligence Bureau, Ministry of Home Affairs, Government of India, Dated 19.02.1955, on the subject of 'Establishment of C.F.P.B and instructions to be followed by State Bureaux and District Police officers in sending F.P. record slips', mentions about the G.O. No. 37/223/55-piii Dated 5.12.55, which incorporates the procedure to be adopted for taking finger impressions of all persons convicted of any offence mentioned in the schedule of offences.

Finger Print slips of the following persons will be recorded at the Central Finger Print Bureau:

- 1) All persons convicted of offences under chapter XII to XVII IPC which are punishable with rigorous imprisonment for a term of one year or more.
- 2) All persons convicted of any offence under Chapter VI IPC or of sabotage and subversive activities against State.
- 3) All persons convicted of offences under section 170, 302, and 304 (murder for gain), 328, 338, 465 to 477A, 489A to 489D IPC.
- 4) All persons convicted under the Arms, Opium and State Excise acts who are suspected

- to be smugglers in Arms, Opium by dangerous drugs as defined in the Dangerous Drugs Act (Act II of 1930) or entailing enhanced punishment on reconviction .
- 5) All persons convicted of smuggling gold, currency and valuable articles under Foreign exchange Regulation Act VII of 1947.
 - 6) All persons ordered to execute bonds under sections 109 and 110 CrPC (for offence against property only).
 - 7) All traffickers in women and children who are convicted under section 363 to 373 IPC.
 - 8) All persons convicted under section 5 of Act LXXIV of 1950 for unlawful possession of telegraph wires.
 - 9) All persons convicted under section 3 of Ordinance XIX of 1944 for unlawful possessions of Railway Stores.
 - 10) All professional criminals and persons of dangerous character externed from any area under any state Act.
 - 11) All foreigners externed under Foreigners Act XXXI of 1946.
 - 12) All approvers in gang dacoity and criminal conspiracy cases.
 - 13) All persons suspected of being professional itinerant criminals and persons of notoriously criminal reputation who habitually absent themselves from their homes and are believed to travel to other states for the purpose of committing crime and who have been arrested by police and whose finger prints have been taken, even if they are acquitted provided that in case of acquittal permission for record for finger prints is obtained from the court under section 7 of Act XXXIII of 1920.
 - 14) All persons convicted for attempt or abetment (sec 511 or 109/114 IPC) and criminal conspiracy (sec 120B IPC) for offences mentioned in this schedule.
 - 15) All Indian nationals convicted outside India of any offence for which finger prints have been received at the State Bureau from those countries.
 - 16) All International criminals and absconders whose finger prints are sent to the State Bureau from countries outside India.
 - 17) All persons convicted under explosive Substances Act (Act VI of 1908).
 - 18) All persons convicted under the official Secrets Act (Act XIX of 1923).
 - 19) All persons convicted under sec 101, 126 and 128 of the Indian Railways Act (Act IX of 1890).
 - 20) Any other person whose finger prints are ordered to be maintained by the Govt. of India from time to time, subject to the provisions of the Identification of prisoners Act (act XXXIII of 1920).

Note: The taking of finger prints of persons who are local men and convicted of offences of trivial nature will be subject to the discretion of the Supdt. of Police of the district concerned.

IMPORTANT COURT VERDICTS ON FINGER PRINT EVIDENCE

1. Supreme Court Ruling of 1961 : [State of Bombay Vs. Kathikalu Oghad AIR 1961 SC 1808]

A thumb impression of an accused taken by the police in course of investigation which was later on produced at the trial did not amount to testimonial compulsion under Article 20(3) and was not on that account inadmissible. It held that the application of finger prints in the identification of persons does not violate the fundamental rights under Article 20(3) of the constitution. It was further held that to be a witness in its wider sense means giving an oral or written statement but does not amount to exposing a part of the body for the purpose of identification.

2. Supreme Court Ruling of 1972 : [AIR 1972 SC 975]

“The comparison and identification of finger prints has developed into a science and the results derived there from have reached a stage of exactitude. As long as the report shows that the opinion was based on observations which led to a conclusion, such opinion can be accepted.”

“Unless there is a doubt as to the correctness of the opinion, the report of the examiner may be accepted without examination of the expert.”

3. Supreme Court Ruling of 1978: [Mohanlal Vs. Ajit Singh AIR July 1978 SC 1183]

The Hon’ble Supreme Court ruled that an opinion based on 8 identical ridge characteristics was fully justified and conformed to the views expressed in scientific books on the subject.

“Nothing substantial has been urged to challenge the opinion of the director of the Finger Print Bureau and all that has been argued is that as there were only 8 points of similarity, there was not enough basis for the expert’s opinion about the identity of finger prints. Reference in this has been made to B. L. Saxena’s ‘Identification of handwriting, disputed documents, finger prints, foot prints and detection of forgeries’ (1968 edition, page 247), Walter R. Scott’s ‘Finger print mechanics’(page 62) and M. K. Mehta’s ‘The identification of thumb impression and the cross examination of finger print experts’ (second edition, page 28). We have gone through these books but they do not really support the argument of the learned counsel for the respondent. While referring to the old practice of looking for a minimum of 12 identical characteristic details, Saxena has admitted that the modern view is that 6 points of similarity are sufficient to establish the identity of finger prints. Walter Scott has stated that as a matter of practice most experts who work with finger prints constantly satisfy themselves as to the identity with 8 or even 6 points.” The larger surface of the fully rolled impression not only allows accurate classification but it also gives more points for comparison. (For representative purpose only)

4. Supreme Court Ruling of 1979: [Jaspal Singh Vs. State of Punjab AIR 1979 SC 1708]

“The science of Finger print identification is an exact science and does not admit of any mistake or doubt.”

**RECOMMENDATIONS OF ALL INDIA CONFERENCE OF DIRECTORS OF FPBx
HELD AT NCRB AUDITORIUM ON 17th & 18th OCTOBER, 2019**

1. National Automated Fingerprint Identification System:

NCRB has placed purchase order for procuring fully computerized National Automated Finger Print Identification System (NAFIS), which is expected to be functional by October, 2020. FP experts stationed at the District or State FPB will be in a position to access the NAFIS central database and get the results online which will drastically reduce the current waiting time of weeks or months that CFPB used to take for furnishing the reply. NAFIS and CCTNS will also be integrated both at the Centre and State level for exchange of relevant crime and criminal information. Around 60 lakhs of FP slips available in different States/UTs will be digitized and migrated into NAFIS. When such a voluminous fingerprint data of different States is made available, many interstate criminals are likely to be traced resulting in solving several unsolved cases, through fingerprint matching. Thus, NAFIS will be a game changer as it will drastically reduce the time and efforts of the investigating agencies, because the investigator will be able to get the results online.

- a) For smooth implementation of NAFIS, a flagship project of NCRB, throughout India penetrating up to district level; the state Nodal officers and Directors FPBx were advised to ensure site readiness at district level, providing enough space and manpower for the installation of NAFIS work stations at all the locations.

[All States/UTs]

- b) States/UTs, which do not have AFIS, were requested to co- ordinate with CFPB for digitization of fingerprint slips with the team deputed by M/s Smart Chip. FP Experts of State FP Bureaux have to validate/check the FP data being digitized and ensure that quality of data is maintained.

[Concerned States/UTs]

- c) States/UTs, where AFIS is functional, were requested to ensure co- operation and support from their respective AFIS vendors for migration of existing FP data into NAFIS Central Database.

[Concerned States/UTs]

- d) States/UTs, who want to continue their own AFIS systems, were requested to ensure cooperation and support from their respective AFIS vendors for developing a utility to replicate their AFIS data into NAFIS Central Database.

[Concerned State/UT]

- e) For any kind of coordination/support/clarification, the States/UTs have been advised to contact CFPB Nodal officer designated for the State/UT.

[All States/UT]

- f) NCRB will organize training for FP experts of all States/UTs on the usage of NAFIS.

[NCRB, States/UTs]

2. NABL Accreditation:

National Accreditation Board for Testing & Calibration Laboratories (NABL) is an accreditation body for Laboratories in India working under the parent body of Quality Council of India to recognize, provide technical skills and reference material so as to have uniform International standards. Accreditation improves the quality, technical competence and efficiency of the Institution. Based on the recommendation of the previous conference, one day awareness on NABL accreditation was arranged at NCRB Hqrs and States/UTs were asked to develop their FP Laboratories for achieving the accreditation. The first step in the accreditation process is to prepare a quality manual consisting minimum quality standards of equipment, manpower, etc. A delegate from Raksha Shakti University, Gujarat, Dr. Sumit Choudhary volunteered for the preparation of quality manual of standards for the fingerprint bureau, in consultation with State FPBx. It was decided that to constitute a committee under the chairmanship of Director, CFPB with members from Punjab, Delhi, Himachal Pradesh and Madhya Pradesh for examining the issues involved in accreditation process and to come out with a quality manual with the help of Raksha Shakti University, Gujarat.

(NCRB/States/UTs/RSU)

3. Manpower:

In the XIX conference, the issue of uniformity in FP staffing patterns across the country was discussed and a Committee was formed to discuss the staffing patterns. The committee, after the meetings, proposed the following staffing pattern which was shared with all States/UTs on which NCRB received feedback from 16 states. The conference was appraised of the recommendation of the Committee and all delegates consented with the staffing pattern recommended by the Committee.

- a) Each Police Sub division (SDPO) will have one Sub Inspector (FP) and one Police Constable (FP)/Multi-tasking Staff.
- b) Each Police District will have one Inspector (FP) and one Photographer in the rank of Head Constable (FP).
- c) Each Range will have one Dy. SP (FP) and one Police Constable (FP)/Multi-

tasking Staff.

- d) Each Zone will have one Addl. SP (FP) and one Police Constable (FP)/Multi-tasking Staff.
- e) Number of posts can be increased if the work load is very high.
- f) Few of the supervisory officers may be stationed at State FPB to assist the Director, FPB. It was recommended that in view of NAFIS implementation by February/March 2020, competent authorities in all states/UTs must take urgent steps to fill up the vacant posts of Fingerprint personnel without delay.

(NCRB/States/UTs)

4. Director of FPB should be a FP expert:

The Conference deliberated on whether Fingerprint Bureau should be headed by an FP expert or not. The house collectively agreed that the Director of a Fingerprint Bureau should be a fingerprint expert. NCRB will inform to all States/UTs.

(NCRB)

5. Modernization of Finger Print Bureaux:

It was informed in XIX Conference that many State Governments do not allot funds for the purchase of modern equipment and FP experts are using the equipment which are obsolete and were supposed to be discarded long ago. It was recommended that NCRB may take up this issue with MHA for providing funds to procure the equipment identified by the committee under Police Modernization scheme and also for sanction of a certain amount every year towards replacement of obsolete equipment and to introduce modern equipment that helps to improve the efficiency of FP experts.

In this regard, it is informed, that MHA has been accepting proposals for purchase of finger print equipment under Police Modernization Scheme and many states have already benefitted under this scheme, e.g., Orissa, Uttar Pradesh, Rajasthan. State FPBs were requested to submit their requirements to Addl. DGP/IGP of their state, who is authorized by the DGP to prepare State Action Plan for the purchase of equipment under Police Modernization Scheme. NCRB has already published Compendium of Fingerprint equipment, which is uploaded on www.ncrb.gov.in. Most of the equipment are listed in Government Electronic Market (GEM), and States are suggested, while submitting requirements, to mention if the equipment is available on GEM to make it easier for MHA to take a positive decision. An advisory in this regard has already been issued to all states by NCRB on 13.05.2019.

(States/UTs)

6. Renaming the Conference Title

In previous conference, the matter to rename the conference as “National Conference on FP Science” was recommended, which was further discussed. An

overwhelming majority recommended that the Conference title need not be changed and the previous name 'All India Conference of Directors of Finger Print Bureaux' should be retained.

[NCRB]

7. Training

- a) Refresher course for Photographers:** Director, Goa and other SFPBx requested to organize refresher course for chance print photographer of their Bureaux. NCRB has assured that training course(s) will be organized with the assistance from NICFS and Mizoram.

[NCRB]

- b) Proficiency course:** NCRB informed that every year 18 weeks proficiency course will be organized at CFPB, Kolkata for the benefit of the employees aspiring to become FP Experts. Delegates were requested to spread this information in their organizations so that competent authorities can send the nominations. It was also informed that one course was starting from 04-11-2019 and nominations could be sent immediately.

[States/UTs]

- c) One day workshop on taking fingerprints:** Most of the documents received in States/UTs/CFPB carry poor quality fingerprints and it is difficult to furnish opinion on such prints. Apart from basic course, one day workshop on taking fingerprints can also be conducted by SFPBx for officers/staff of CBI, Railways, revenue officers, post offices, banks, Registrar offices, Insurance companies, recruiting agencies etc. to sensitize the persons responsible for taking fingerprints to take good quality prints. NCRB informed that one such course is being conducted every month at CFPB, Kolkata. Delegates expressed that frequency of such a course needs to be increased and to invite nominations from all the States/UTs. Further, it was felt that courses can be conducted in all Police Academies, Police Training Colleges to cater the needs of various States/UTs.

It was decided that NCRB will ask State governments to nominate officials from all departments under them, where fingerprints on documents are taken, for such one day training course.

[NCRB/States/UTs]

- d) Fingerprint Training on Modern Chemical Methods:** Delegates requested that CFPB should conduct Training on new chemical methods of fingerprint development for fingerprint experts.

[NCRB]

8. Regulation of Private experts

The case of private fingerprint experts, who practice under section 45 IEA and give opinions, was deliberated in the conference. In CFPB/States/UT, every document case is examined by three experts to maintain quality and eliminate any chance of mistake, whereas a single person gives opinion in case of examination by a private expert. It was felt that the issue needs thorough examination, and , therefore, a committee is proposed to be constituted under the chairmanship of Joint Director (CCTNS) with members from Punjab, Haryana, Maharashtra, Delhi and Himachal Pradesh, where there is a legal verdict regarding authenticity of private experts.

(NCRB, Punjab, Maharashtra, Haryana, Delhi and HP)

9. FP Records of Arrestees:

It was decided that, Finger print slips of arrested persons would be retained in SFPBx/CFPB until there is request from authorities for removal of slips or information regarding details of acquittal is received.

(NCRB, States/UTs,)

Annexure-IV

**SANCTIONED AND POSTED STAFF STRENGTH IN PROMINENT STATE FPBx AS
ON 31.12.2019**

This annexure gives overview of staff position in prominent State Finger Print Bureaux functioning in the country.

1. ANDAMAN & NICOBAR

Sl. No.	Post	Sanctioned Strength (SFPB, Zone/Range/Distt.)	Posted Strength (SFPB, Zone/Range/Distt.)	Vacancy
1.	Director/S.P.	01	01	00

33. CHANDHIGARH

❖ No Finger Print Bureau

34. DADRA & NAGAR HAVELI

❖ No Finger Print Bureau

35. DAMAN& DIU

❖ No Finger Print Bureau

36. LAKSHDWEEP

❖ No Finger Print Bureau

The numbers of sanctioned, posted staff and vacancies may be taken as indicative, because in some Bureaux there is more staff posted than actually sanctioned position, thus the value of vacancy too may not be correct

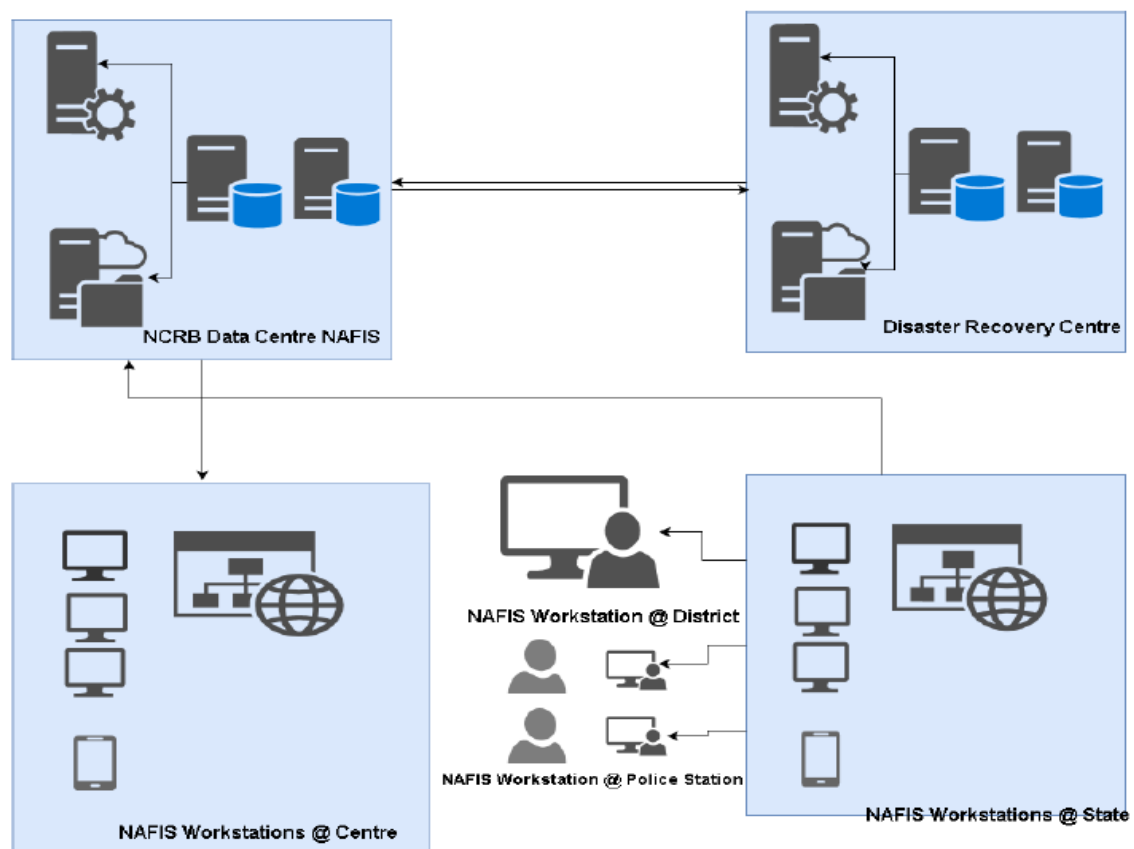

Annexure– V (a)**NATIONAL AUTOMATED FINGER PRINT IDENTIFICATION SYSTEM (NAFIS)**

Automation of the fingerprinting technology has been the agenda of scientific and industrialist peers in order to provide the law enforcement agencies with the best of the tools and techniques to maintain highest possible decorum of law and order. As there is a need of fast and robust system to handle large number of data and cope up with latest emerging trends in the era of Finger print science, MHA has taken a call to procure latest system for replacement of FACTS in the country. Following are the specifications and work flow of the system.

Overview

The basic process of capture, use and management of fingerprint information in crime and criminal investigation has been defined in the Identification of Prisoners Act, 1920 and its amendments, other State and Central acts and other procedures defined by law.

Based on the provisions of the act, both rolled and plain fingerprints (including palm prints) will be captured from individual involved in crimes through Fingerprint Enrolment Devices (FEDs) or on paper. The FEDs also have relevant embedded software for capture, processing and transmission of fingerprint information for search, matching and verification purposes performed through NAFIS software.

Indicative architecture of NAFIS:

- The NAFIS software serves as the key application for Fingerprint experts/personnel for performing crime and criminal investigation functions. Fingerprints are generally acquired for crime and criminal investigation captured through enrolment of fingerprints of individuals as per the due process laid down by law, chance fingerprints lifted from the site of incident or scene of crime, fingerprints identification through query from an existing fingerprint database (Developed through Enrolment of fingerprints) only for matching and verification purposes as per due Procedure. Chance/Latent fingerprints are class of fingerprints which are not visible to the naked eye and can be used for verification and matching after suitable enhancements.
- It is to be noted that currently 26 States/UTs have implemented AFIS software supplied by various solution providers and 10 States/UTs are yet to implement AFIS solution. The State Fingerprint Bureau (SFPB) is the nodal organization for collection, storage, operations/transactions and management of Fingerprint related information with respect to crime and criminal investigation and tracking functions.
- The SFPB and its staff at districts and other locations carry out fingerprint related functions in police organization.
- Further it is also envisaged that the Fingerprint Enrolment Devices are to be used at Police stations or the Fingerprint reader device integrated with the Mobile Data Terminal using the public Internet for accessing the Central NAFIS database.
- The National level NAFIS solution would be implemented and managed by the Central Fingerprint Bureau (CFPB) at NCRB, New Delhi. The National level Automated Fingerprint Identification System (NAFIS) shall function as the central information repository of all the crime and criminal related fingerprint data of the country. The NAFIS solution envisaged shall consolidate all the fingerprint information available at all States/UTs in AFIS or any other databases for development of a national level searchable fingerprint information repository.
- The NAFIS solution would also integrate with the Core Application Software of CCTNS project implemented at Central level for extracting relevant crime and criminal attribute data mapped to the fingerprints.
- The virtual partition of NAFIS designated for 36 States/UTs would also integrate with CCTNS application (Customized and Configured Core Application Software (State) or other similar applications implemented at States/UTs) for mapping of relevant crime and criminal attribute data with fingerprint data for providing descriptions of demographics, reporting and annotation purposes.

Under NAFIS Project following components will be delivered:

NAFIS Data Centre is located at NCRB Data Centre in Delhi,

One Disaster Recovery NAFIS backend system at NIC NDC in Bhubaneswar, Odisha.

- ✓ The Frontend Workstations, distributed as follows:

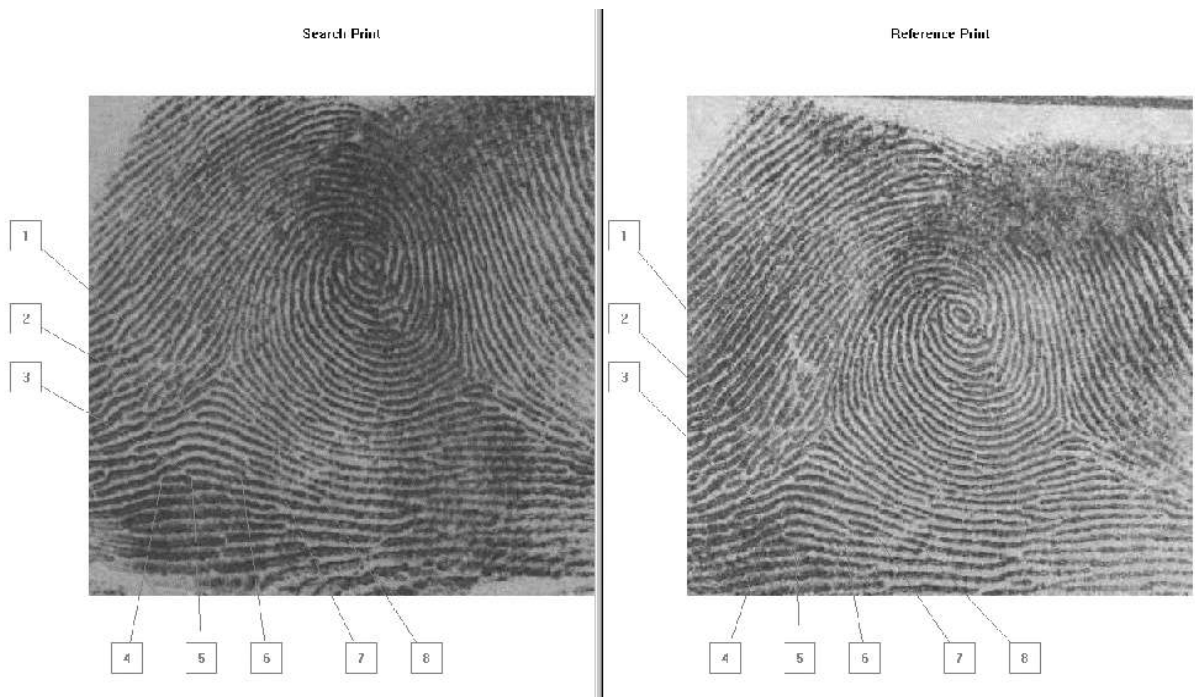

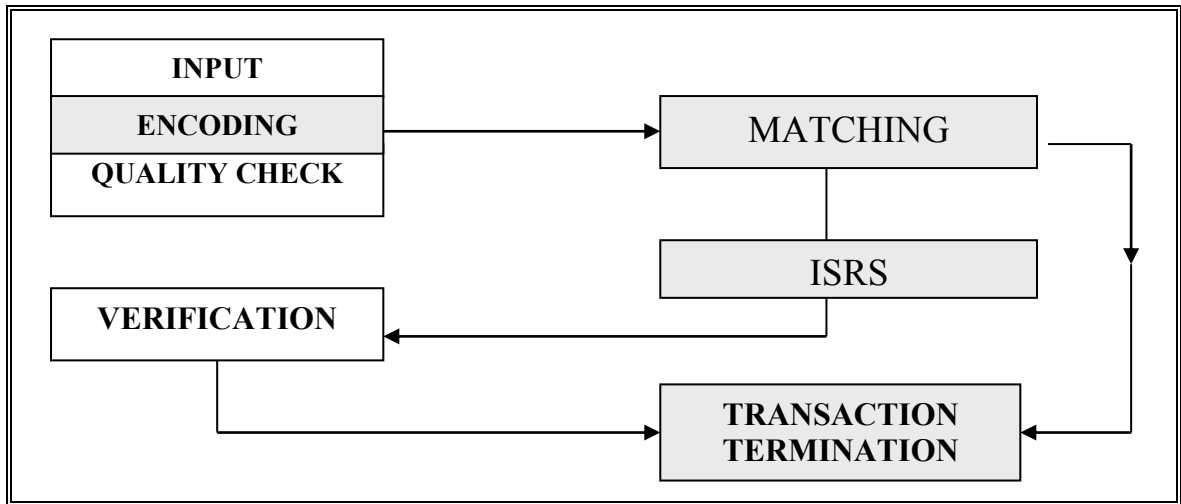

- 20 workstations at NCRB Delhi
- 5 workstations at NCRB Kolkata
- 6 workstations at 16 large states (total 96 workstations)
- 4 workstations at 10 medium states (total 40 workstations)
- 2 workstations at 10 small states (total 20 workstations)
- 1200 workstations at District police units and Commissionerate's
- 2472 single digit fingerprint scanners for mobile devices

- ✓ Software components such as
- ✓
 - Morpho Enrollment Software application (MESA)- Enables to enroll the Arrestee/ convicted persons into the NAFIS system and can perform search and Match of the submitted prints.
 - Morpho Biometric Identification system (MBIS)- enables acquisition, storage, and search of biometric data of persons
 - Bio Search (Mobile app) - Enable the police personnel posted at check posts to verify the antecedents of suspects without taking them to the police stations and
 - Document case module- Enable FP expert to examine the Document case by comparing questioned prints with the specimen prints. It has extensive tools, which enables FP experts to enhance Questioned prints.

FINGERPRINT ANALYSIS AND CRIMINAL TRACING SYSTEM (FACTS)

Since, FACTS is the indigenous version of AFIS being used by finger print bureaux throughout the country, following is the brief illustration describing the working a generic FACTS system.

The following diagram shows the work transaction mechanism of FACTS 5.0.

AFIS BASED COMPARISON AND MARKING OF IDENTICAL POINTS (FOR REPRESENTATIVE PURPOSE ONLY)

The first FACTS was developed by NCRB with assistance from CMC Ltd. with the most basic features for an automated system. With the advent the microprocessors and communication technology, the latest FACTS is equipped with the state of the art advantages that improves the efficiency of a Finger Print expert. Following is an analytical comparison of the range of features developed since the inception of the FACTS system.

AFIS Interface Specification

The Electronic Finger Print Transmission Specification or EFTS defines the interface between the IAFIS and other agencies' systems. The EFTS contains a description of operational concepts, descriptors, field edit specifications, image quality specifications, and other information related to AFIS services.

Specifications		Facts-1	Facts -3	Facts-4	Facts-5
Ease of Operation		X	✓	✓	✓
Types of prints accepted	Inked	✓	✓	✓	✓
	Chance prints	✓	✓	✓	✓
	Live Scanner	X	✓	✓	✓

Court opinion chart		X	X	✓	✓

The Electronic Biometric Transmission Specification (EBTS) is the latest upgrade to the FBI Finger Print specification and replaces EFTS Version 7.1. The scope of the EBTS has been expanded over previous versions to include additional biometric modalities (e.g., Palm print, facial, and iris) in recognition of the rapidly developing biometric identification industry. The most recent update to the American National Standards Institute /National Institute of Standards and Technology-Information Technology Laboratory 1-2015 (ANSI/NIST-ITL 1-2011, Update: 2015) standard includes new record types to facilitate data sharing for new biometric modalities. Integrating biometric data in accordance with the ANSI/NIST standard, the FBI EBTS provides a description of all requests and responses associated with electronic Finger Print and other biometric identification services.

| a) Illuminated Microscope | g) Ninhydrin fuming chamber | l) Finger Print development Kit |
| b) Iodine Fuming kit | h) Cyanoacrylate kit | m) Iodine heating chamber |
| c) Heating Oven | i) LED magnifier lenses | |
| d) Ninhydrin Kit | j) Cadaver Spoon & straighten | |
| e) UV Search table | k) Digital camera | |
| f) UV light source Kit | | |

2. ANDHRA PRADESH

- | | | |
|-----------------------------|---|---------------------|
| (a) FP developing Kit Box | (b) Poly Ray UV kit with fluorescence powders | (c) UV Light Source |
| (d) Stand Magnifier PFP 200 | (e) Lenin Testers | |

3. ARUNACHAL PRADESH

- | | | |
|--|-----------------------|--------------------------|
| a) Automated Finger Print Identification System (AFIS) | b) Live Scanner | c) Camera |
| d) Finger Print Kit box | e) Latent Print Kit-1 | f) Forensic Light Source |

4. ASSAM

- | | |
|-------------------------|--|
| a) Finger Print kit box | b) Powders, Lifting Tapes, Brushes Lenses etc. |
|-------------------------|--|

5) BIHAR

- | | | |
|---|------------------------|-------------------|
| a) Cyanoacrylate fuming chamber-1, Functional | b) F.P. Developing Kit | c) F.P Taking Kit |
| d) Video Spectral Comparator | | |

6. CHHATTISGARH

- | | | |
|------------------------|---------------------|---------------------------|
| a) F.P Development Kit | b) Poly view System | c) Dead Body Kit |
| d) Poly Light System | e) Live Scanner | f) Dust Print Lifting Kit |
| g) F.P Taking Kit | h) Microscope | |

7. DELHI

- | | | |
|---|-------------|--|
| a) Portable Vacuum Cyanoacrylate FP development equipment | b) CRIS | c) Integrated Image Enhancing System (Not Working) |
| d) Integrated Image Enhancement and Transmitting System (Not Working) | e) V.S.C- I | f) Crime lite |
| g) Crime Light | h) DLK | i) Russell Comparator |
| j) CED 2000 Comparator | k) RUVIS | l) RUVIS (Lab Cam) |

m) Digital Camera

n) Live Scanner

8. GOA

a) F.P Powders and Brushes
d) Nikon Camera

b) F.P development Kit
e) FACTS System

c) F.P. Recording kit

9. GUJARAT

a) District Mobile Forensic Unit (DMFU)
d) F-80 SLR Camera (Nikon)
g) FM-3 Camera (Nikon)

b) Finger Print powders and brushes
e) D-80 SLR Camera (Nikon)
h) Photo Lab & Dark Room facilities

c) Finger Print developing kit
f) Dust Print Lifting

10. HARYANA

a) AFIS
b) Finger Print developing kit

11. HIMACHAL PRADESH

a) Finger print developing kit
c) Cyanoacrylate fuming chamber

b) Diff. Finger Print powders and brushes
d) Focus Comparator

12. JAMMU & KASHMIR

a) Scanners
d) UPS-75 KVA

b) Printer
e) FP Kit

c) Live Scanner

13. JHARKHAND

a) Square lens

b) Finger Print taking kit

c) FP development kit

14. KARNATAKA

a) Live Scanner (FED)
d) Imported Finger Print Kit Box
g) Cyanowand kit
j) Cadaver Kit Box
m) Dust print lifter

b) Mini crime scope/poly light
e) Dust lifting kit
h) Iodine Fuming cabinet
k) Imported FP powders, brushes, Tapes

c) Digital/ SLR cameras
f) Footprint kit box
i) Ninhydrin sprayer
l) AFIS

15. KERALA

a) AFIS
d) Modern Scientific Investigation kit
g) Bright Light Torch
j) Head Loop
m) Camera
p) Path Finder

b) Live Scanners
e) FP Developing Kit
h) Ultra-light
k) FP Stamping Kit
n) LED Illuminated Magnifier
q) Forensic Light Source

c) Crime Lite
f) DLK Kit
i) Live Scanner
l) FP recording kit
o) Angle Poise Lamp

16. MADHYA PRADESH

- | | | |
|---------------------|--------------------|-----------------|
| a) Finger Print kit | b) Post mortem Kit | c) Live Scanner |
| d) Poly ray | e) Inkless Pad | |

17. MAHARASHTRA

- | | | |
|-----------------------------|-----------------------|---------------------------|
| a) Mobile Forensic Van | b) Poly-Ray Light | c) Dust print Lifting Kit |
| d) Cepri-Gun forensic light | e) Visitation Kit Bag | f) Foot Print Kit Bag |

18. MANIPUR

- | | | |
|-----------------------|---------------------------|-------------------|
| a) Fingerprint Kit | b) VSC-QDX 630BE | c) Digital Camera |
| d) Visitation kit bag | e) Fingerprint comparator | |

19. MEGHALAYA

- | | | |
|------------------------------------|----------------------------|-------------------------|
| a) Finger Print kit box | b) Luma Lite | c) Ninhydrin chamber |
| d) Linen tester and Battley's lens | e) Iodine fuming apparatus | f) Crime lite, Lumalite |
| g) Silver nitrate | h) Dust lifter kit | i) DD detection light |
| j) Digital camera | k) Sun Gun | l) Investigation kits |
| m) UV lamp | n) Illuminated magnifier | |

20. MIZORAM

- | | | |
|--|-----------------------------------|---------------------------|
| a) HP Proliant ML350 Gen9 Server System for AFIS | b) 3 HP Z230 workstation for AFIS | c) HP LaserJet Pro M202dw |
| d) HP Scan Jet 5590 printer | e) Canon Scanner | f) Stand Alone Computer |
| g) HP LaserJet P1007 Printer | | |

21. NAGALAND

- | | | |
|-----------------------------|-------------|--------------------------|
| a) Latent print special kit | b) Poly Ray | c) Iodine Fuming chamber |
| d) AFIS | | |

22. ODISHA

- | | | |
|--------------------------|-------------------|-------------------------|
| a) Forensic Light Source | b) Digital camera | c) Finger Print kit box |
| d) Footprint kit boxes | | |

23. PUDUCHERRY

- a) FP Kit Box

24. PUNJAB

- | | | |
|--------------------------------|--|---|
| a) Bellow type camera | b) Intensive light source | c) Single digit rolled print live scanner |
| d) Dust print lifting material | e) Iodine fuming chamber | f) Nikon FM10 Camera |
| g) Microscope | h) Russell Comparators | i) UV light |
| j) Infra-Red Ray source | k) Modern Finger Print developing kits | l) Magnetic latent kit |

25. RAJASTHAN

- | | |
|---------------------------------------|-----------|
| a) Modern Finger Print developing kit | b) Camera |
|---------------------------------------|-----------|

26. SIKKIM

- | | | |
|---------------|---------|---------------|
| a) FP Kit Box | b) AFIS | c) Comparator |
| d) Scanner | | |

27. TAMIL NADU

- | | | |
|--------------|--------------|-------------|
| a) Computers | b) Kit boxes | c) Vehicles |
| d) Camera | | |

28. TELANGANA

- | | | |
|-------------|-------------------------|-----------------------|
| a) Poly Ray | b) Electric Dust lifter | c) FP Kit & Equipment |
|-------------|-------------------------|-----------------------|

29. TRIPURA

- | | | |
|-----------------------|------------------|-----------------|
| a) FP Development Kit | b) FP Taking Kit | c) Linen Tester |
|-----------------------|------------------|-----------------|

30. UTTARAKHAND

- | | | |
|------------------|---------|-------------------|
| a) Crime Kit Box | b) AFIS | c) Digital Camera |
| d) Live Scanner | | |

31.UTTAR PRADESH

NIL

32.WEST BENGAL

- | | | |
|-------------------|---------------|------------------------------|
| a) Detector Light | b) Electronic | c) FP Developing& Taking kit |
| d) Lens | | |

**LIST OF TOPPERS OF ALL INDIA BOARD FOR EXAMINATION OF F.P.
EXPERTS (AIBE) FROM 1963 TO 2019**

Year	No. of Persons Qualified	Name	State
1963	27	Sh. T.A. Jose	CFPB
1964	08	Sh. B.N. Sahai	Bihar
1965	22	Sh. M.N. Sinha	Bihar
1966	27	Sh. K.P. Sinha	Bihar
1967	35	Sh. K. Laxma Reddy	Andhra Pradesh
1968	38	Sh. S.M. Singh Bhalla	Punjab
1969	19	Sh. V. Muthu Karuppan	Madras
1970	27	Sh. D. Narsimha Murthy	Andhra Pradesh
1971	43	Sh. S.J. Pathak & Sh. M.K. Mody (Joint)	Gujarat
1972	30	Sh. P.K. Ghosh	West Bengal
1973	36	Sh. Sisir Chakrabarti	CFPB
1974	48	Miss S.N. Aryambal	Tamil Nadu
1975	39	Sh. P.D. Narkar	Maharashtra
1976	23	Sh. Iqbal Ahmad Usta	Rajasthan
1977	13	Sh. Shuja Shafquat	J&K
1978	99	Sh. K.S. Dhaliwal	CFSL New Delhi
1979	55	Sh. V.P. Sharma	CFPB
1980	70	Sh. Gopal Krishna Mishra	Odisha
1981	62	Sh. B. Venugopal Nair	Kerala
1982	41	Sh. V. Nageswara Rao	Tamil Nadu
1983	48	Sh. T. Jayashankar	Tamil Nadu
1984	61	Sh. R. Rajendran	Kerala
1985	16	Sh. K. Madhusudan & Sh. Pirthipal Singh (Joint)	Kerala & Punjab
1986	68	Sh. Suhas Mitra & Sh. Narayan Prasad (Jt.)	CFPB & Haryana
1987	41	Sh. J.K. Kaushik	Delhi
1988	52	Sh. Amar Pal Verma	Delhi
1989	46	Sh. Nar Singh	Haryana
1990	77	Sh. B. Yeshwant Khedekar	Maharashtra
1991	66	Sh. Ajay Gadkary	CFPB
1992	34	Sh. S.S. Baisoya	CFPB
1993	44	Sh. Mukhtiar Singh	Punjab
1994	36	Mrs. Savita Devi	Odisha
1995	25	Sh. P.K. Mishra	CFPB

1996	26	Sh. Birja Prasad Samal	Odisha
1997	26	Sh. Giri Raju	Karnataka
1998	22	Sh. Darshan Singh	Punjab
1999	42	Smt. Manjit Kaur	Punjab
2000	28	Smt. Harbhajan Kaur	Punjab
2001	38	Sh. Manjeet Kumar Viridi	CFPB
2002	29	Smt. Anita Kadam	Madhya Pradesh
2003	22	Smt. Mousumi Doloi	Odisha
2004	11	Sh. Manoj Kumar	Delhi
2005	22	Sh. K.Jayan	Kerala
2006	37	Sh.Ranbir Singh	Haryana
2007	11	Smt. Neelam,	Haryana
2008	23	Sh. Ram PartapRai	Punjab
2009	37	Sh. S. Arun Kumar	Kerala
2010	21	Sh. Shibhu Raj M.S.	Kerala
2011	42	Smt. M.Hema	Tamil Nadu
2012	21	Sh. V. V. Vivekanandan	Kerala
2013	45	Sh.Jagpal Sharma	J & K
2014	10	Sh. Rajesh Kumar R.	Kerala
2015	157	Sh. Y. Pavankumar Reddy	Andhra Pradesh
2016	66	Ms. Ruchi Raghuvanshi	M.P.
2017	10	Sh. Ajesh K V	Kerala
2018	112	Sh. Rejani Raj V R	Kerala
2019	41	Sh. Sudheesh K.V	Kerala

Annexure-VII

LIST OF BOOKS ON FINGER PRINT SCIENCE

S. No.	Title of the Book	Author	Year of Publication
I. FUNDAMENTALS OF FINGER PRINTSCIENCE			
1	Fundamentals of Finger Print Analysis	Hillary Moses Daluz	2014
2	Fingerprints: Analysis and Understanding	Mark Hawthorne	2008
3	Fingerprints and Other Ridge Skin Impressions	Christophe Champod, Chris J. Lennard, Pierre Margot, Milutin Stoilovic	2004, 2016 (2 nd edi.)
4	Friction Ridge Skin: Comparison and Identification of Fingerprints	James F. Cowger	1992
5	The Science of Fingerprints	United States. Federal Bureau of Investigation	2015
6	Quantitative-Qualitative Friction Ridge Analysis: An Introduction to Basic and Advanced Ridgeology	David R. Ashbaugh	1999
7.	Finger Print Identification	Surinder Nath	2010
II. ADVANCED FINGER PRINTSCIENCE AND TECHNOLOGY			
8	Lee and Gaensslen's Advances in Finger Print Technology, Third Edition	Robert Ramotowski	2012
9	Finger Print Detection with Lasers, Second Edition	Menzel	1999
10	Finger Print Analysis Laboratory Workbook	Hillary Moses Daluz	2014
11	Touch less Finger Print Biometrics	Ruggero Donida Labati, Vincenzo Piuri, Fabio Scotti	2015
12	Hand Book of Finger Print Recognition	Davide Maltoni, Dario Maio, Anil K. Jain, Salil Prabhakar	2003
13	Automatic Finger Print Recognitions Systems	Nalini Ratha Ruud Bolle	2003
III. CRIME SCENE INVESTIGATION			
14	Hidden Evidence: Forty True Crimes and How Forensic Science Helped Solve Them	David Owen	2003
15	Fisher's Techniques of Crime Scene Investigation First International Edition	William J. Tilstone, Michael L. Hastrup, Camilla Hald	2012
IV. FINGER PRINT BOOKS IN HINDI			
16	हस्तलेखा एवं अंगुलिछाप विज्ञान (Handwriting and Fingerprints Science in Hindi, 5th Edition)	B.L. Babel	2013
17	अंगुलि छाप विज्ञान	S. Siddique	-
18	आधुनिक अंगुलि चिन्ह विज्ञान	Dr. Nishant Singh	2008

**List is suggestive & random; CFPB does not recommend or promote any of the books given in the list.*

Annexure– VIII (c)

DO letter for National Automated Fingerprint Identification System (NAFIS)

CFPB(105)/UPG/11/2019-NCRB
Government of India
Ministry of Home Affairs
National Crime Records Bureau

NH-8, Mahipalpur,
New Delhi-110037
Dated: 09 /07/2019

To,
DGsP,
<< All States/UTs>>

Sir/Madam,

Sub: National Automated Fingerprint Identification System (NAFIS)– Reg.

As you are aware, Central Finger Print Bureau (CFPB) was established vide Government of India notification no. 37/223/55- P.III, dated 5.12.55 and mandated to collect, store and maintain national searchable Finger Print (FP) data base of criminals **to facilitate the identification of interstate criminals and habitual offenders including absconders, notified criminals and offenders under special acts.** Presently, physical FP slips are prepared at PS/district level and sent to CFPB at NCRB through respective State Finger Print Bureaus (SFPBx) for digitization and storage for facilitating inter-state search of criminals. The existing physical movement of FP slips to CFPB is thus quite time consuming and does not meet the real-time expectations of State Police Organizations for inter-state criminal search.

2. National Automated Fingerprint Identification System (NAFIS) has now been conceptualized and will be implemented on the principles of cloud computing model where Finger Print slips will be digitized at district level itself and forwarded to CFPB through hardware and software provided by NCRB. The digital FP slips will be stored in dedicated and virtual partitions allotted to each State/UT in the Central NCRB Server. Only authorized users from States/UTs can edit/modify/update the data stored in the exclusive space allotted to the States/UTs with audit trail. They will however be able to make searches across the data of all the States/UTs for identifying inter-state criminals. This will help investigators in the States/UTs to make searches across national database of FP themselves instead of the present system of requesting NCRB for such searches.

3. For the States/UTs who already have their own NIST compliant AFIS system, NAFIS will provide the required facility to integrate with the National server for replicating the FP data and providing searches.

4. NCRB has recently placed the order for the installation and commissioning of NAFIS. In first phase, hardware such as workstation, Flatbed Scanner, Fingerprint

enrolment device, Single digit Live scanner will be provided to the SFPBx and to the District headquarters. Police stations will be covered in the next phase of the project. NCRB/NAFIS solution provider will install and commission the system at respective SFPBx/District headquarters and also impart training to the concerned staff.

5. In order to create a national level searchable database of FPs, it is essential to digitize the pending physical FP slips in your State in a time bound manner. NAFIS Solution Provider will depute its team to the SFPBx for this purpose shortly. Shri A. Mohan Krishna, Deputy Director (C-III), has been nominated as the Nodal Officer from NCRB and he may be reached at amkrishna@ncrb.nic.in, Mobile: 8527747692, Land line: 011-26735402 for all communications in this regard.

6. It is, therefore, requested to nominate a Nodal Officer from your State/UT to coordinate with NCRB in this regard and his contact details may be shared at an earliest.

Yours sincerely

9/7/19
(Ram Phal Pawar)

Glossary

- ❖ **AMPUTATED-** The removal of a limb or other body extremity by trauma, prolonged constriction or surgery.
- ❖ **ARTIFACT-** Any distortion or alteration not in the original friction ridge impression produced by an external agent or action. 2: Any information not present in the original object or image inadvertently introduced by image capture, processing, compressions, transmission, display, or printing. (SWGFAST 2011)
- ❖ **AUTOMATED FINGER PRINT IDENTIFICATION SYSTEM (AFIS)-** An automated, minutiae-based identification system that may consist of two or more distinct databases comprising two-finger identification records and ten-finger latent cognizant records (records of individuals more likely to be found at crime scenes, for example, burglars). 2: A computer-based system for reading, cataloguing, searching, matching, and storing fingerprints and related data. (ANSI/IAI) 3: A generic term for a Finger Print matching, storage, and retrieval system. (SWGFAST 2011)
- ❖ **ACE-V-** The process for identifying latent fingerprints, which involves Analysis, Comparison, Evaluation, and Verification:
 - a. Analysis is the qualitative and quantitative assessment of Level 1, Level 2, and Level 3 Details to determine proportion, interrelationship, and value for individualization.
 - b. During Comparison, the latent print examiner looks at the attributes noted during analysis for differences and agreement between the latent print and the known exemplar.
 - c. Evaluation follows extensive comparison by making a determination if two impressions were made by the same source, not from the same source, or if the information is inconclusive. (A determination is made as to the results of the Comparison process. The Finger Print community accepts three conclusions: (a) the latent print and known exemplar were made by the same source, (b) the latent print and known exemplar were not made by the same source, or (c) a conclusive comparison could not be determined. This could be due to a lack of comparable area in the known exemplar or lack of clarity due to improperly recorded known exemplars.)
 - d. Verification occurs when a second qualified examiner does an independent assessment of the latent print and known exemplar, utilizing the ACE process.
- ❖ **ALGORITHM-** Mathematical routine used in computer processing. In AFIS processing, the matcher algorithm searches for relationships between the search print and ten-print. 2: Mathematical routine used in computer processing, e.g., an AFIS matching algorithm establishes the correlation of Level 2 Detail between fingerprints. (SWGFAST). 3: A step-by-step computational procedure for solving a problem. The

system computer and other system components use algorithms to make decisions required to process and handle information. (ANSI/IAI)

- ❖ **ANSI/NIST STANDARD-** Standard proposed by NIST and adopted by ANSI. For example, the ANSI/NIST-ITL standard Data Format for the Interchange of Fingerprint, Facial & Other Biometric Information is used by law enforcement, intelligence, military, and homeland security organizations throughout the world. The first version of this standard dates to 1986. Over the years, it has been updated and expanded to cover more biometric modalities beyond the original record type of Finger Print minutiae. (NIST)
- ❖ **BACKGROUND DISTURBANCE / INTERFERENCE-** A feature of the background (such as the texture or pattern) of the substrate (surface) that the mark is left on, which affects the appearance and resultant interpretation of the friction ridge flow or ridge details.
- ❖ **CADAVER-** A deceased person.
- ❖ **CHANCE PRINT OR SCENE OF CRIME PRINT-** means any chance or accidental impression left by friction ridges skin on a surface, regardless of whether it is visible or invisible at the time of deposition.
- ❖ **DISPATCH CHEQUE-**The details in triplicate prepared by the State Bureaux containing Name, Parentage of the convicts and Cheque No., Date and District of Origin of Finger Print Record Slips for forwarding the Finger Print Record Slips to other Bureaux are called Dispatch Cheques /Invoice.
- ❖ **DATABASES-** Collections of data and associated material designed to provide information rather than for archive, which are stored systematically in hard copy or electronic format and are, e.g. used for: providing information on the possible origin of objects or substances found in casework; and/or providing statistical information.
- ❖ **EDGEOSCOPY-** Study of the contour or shape of the edges of friction ridges.
- ❖ **EXPERT (CFPB)-**'Expert' means an officer working in the CFPB having undergone thorough training in classifying, recording & searching of F.P. Slips and examining of latent and documentary prints either in any State Bureau or at the Central Finger Print Bureau and having a Finger Print expert certificate by clearing the All India Board for Examination of Finger Print Experts.
- ❖ **EXEMPLAR-** An impression or image of friction ridge skin purposely collected with the knowledge of the subject. 2: The prints of an individual associated with a known or claimed identity deliberately recorded electronically, by ink, or by another medium (also known as known prints). (SWGFAST 2011)

- ❖ **ELIMINATION FINGERPRINTS** -Finger Print images taken from persons with legitimate access to evidence under examination for latent fingerprint. 2: Exemplars of friction ridge skin detail of persons known to have had legitimate access to an object or location.
- ❖ **GRAY-SCALE IMAGE** -An image using more than two radiometric values, i.e., 256 shades of gray in an 8-bit image. Not a strictly black/white image.
- ❖ **HENRY CLASSIFICATION**- an alphanumeric system of Finger Print classification named after Sir Edward Richard Henry used for filing, searching, and retrieving ten-print records.
- ❖ **FINGER PRINT SLIP FOR RECORD**- The form containing 10-digit rolled impressions and plain prints taken in proper sequence for record with particulars regarding name, parentage, residence, conviction, etc. of a convict is called a Finger Print Slip for record.
- ❖ **FINGER PRINT SLIP FOR SEARCH**- Similar form with 10 digit impressions when used for search to trace previous conviction from the record of the Bureau is called Finger Print slip for search.
- ❖ **INKED FINGER PRINT**- the Intentional recording of the friction ridge skin. Using black printer's ink and a Finger Print roller, the ridge characteristics of a particular individual, can be formally recorded on a standard Finger Print card.
- ❖ **INTERPOL**- Originally the International Police Commission, established in 1923 with the first headquarters in Vienna, Austria. With the General Secretariat now in Lyon, France, Interpol focuses on international crimes that threaten public safety, especially those involving terrorism, criminal organizations, drugs, finances and technology, and trafficking in human beings, and provides fugitive investigative support.
- ❖ **LATENT(Chance print)/LATENT SEARCH**- A search of a latent print against other latent prints, which are usually stored in the Unsolved Latent File, and which has the potential to link crimes committed by same person, even though that person is as yet unidentified. Also referred to as a latent/unsolved latent search.
- ❖ **LIVESCAN**- "Livescan" is an electronic biometric platform for capturing, storing and transmitting friction ridge detail.
- ❖ **MINUTIAE DATA**- The data representing the relative position, orientation, and in some cases, the relationship and/or types of the minutiae in a Finger Print image.

- ❖ **NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY-** Formerly known as the National Bureau of Standards, this division of the U.S. Department of Commerce ensures standardization in non-defense government agencies.
- ❖ **PATTERN CLASSIFICATION-** Characterization of a Finger Print as containing one of seven Finger Print patterns: arch, tented arch, right-slant loop, left-slant loop, whorl, amputation, or scar. The Integrated Automated Finger Print Identification System will provide for both pattern level and Henry classifications.
- ❖ **SCANNER-** Capture device to create a digital image. New scanners that connect to the Finger Print Work stations must meet the standards outlined in Appendix F of the Electronic Biometric Transmission Specification.
- ❖ **TEN-PRINT-** A Finger Print card (or Finger Print card equivalent) containing rolled and plain impressions from the ten fingers of an individual. The standard format contains 14 impressions: one rolled Finger Print impression of each finger, plain Finger Print impressions of each thumb, and plain impressions of the four fingers of each hand simultaneously.
- ❖ **TEN-PRINT IMAGE SEARCHES-** An electronic transaction submitted to the Central/State Finger Print bureau's data base, which contains fingerprint images, classification information as required by the Automated Fingerprint Identification System, or remotely extracted fingerprint characteristics. The subsequent search will be conducted automatically with no additional manual editing or processing. If candidates are identified, the candidates' PIN Numbers are returned to the transmitting agency along with fingerprint images from the highest scoring candidates.
