MESSAGE

It gives me pleasure to present the Annual Report "Prison Statistics India" for the year 2015 published by the National Crime Records Bureau (NCRB). This report is twenty first in the series; first report having been published for the year 1995. This annual publication contains detailed statistical information on various aspects of prison institutions, demographic details of inmates' population, period of detention, vocational training, etc.

2. Like previous year, this year also a special compilation of data on nationality-wise inmates lodged in Jails, inmates still lodged in jails due to non-payment of fine and best practices adopted by some of the States/UTs in the field of prison management and welfare & rehabilitation of prison inmates in exclusive tables have been published. I am quite sure that publication will enable the policy makers and all stakeholders to take informed decisions and carry out further studies & research as well as framing policies on this important subject.

3. I commend Director General, NCRB and his team for their efforts in further improving the contents & timely publication of this Report and hope they will continue to do so in the future.

(Rajiv Mehrishi)
