MESSAGE

I am happy to know that the 22nd edition of 'Prison Statistics India 2016', an annual publication of National Crime Records Bureau (NCRB), is being released. This document which is being published since 1995, provides comprehensive statistical information on various aspects of prisons, prisoners and prison administration. Over the years, it has become a principal reference document for accurate and reliable information about prisons and prisoners. It not only provides significant inputs for formulating policies aimed at improving prison administration, but also helps in assessing the impact of correctional policies.

2. I am confident that this publication will be of immense help to all stakeholders especially law makers, Central & State / UT Governments, policy makers, prison administrators, researchers, criminologists and media.

3. I express my sincere thanks to the Chiefs of Prison Departments of all States/UTs for furnishing data to bring out this publication. I commend the efforts of Director, NCRB and his team of officers for collating, compiling and preparing this report.

(Rajiv Gauba)
